

## GREEN BAY EAST HIGH SCHOOL THEATRE DEPARTMENT

This year the Green Bay East theatre students will take on a unique story in their spring play “Radium Girls.” *Radium Girls* takes place in 1926, a time when radium was a miraculous treatment, Madame Curie was a global celebrity, and luminous watches were the newest fashion item—that is, until the girls who painted them started to get sick with an unexplained illness.

Radium Girls will be performed on April 26 & 27, 2024 in the East High School auditorium. Curtain is at 7pm.

Would you be a “**Theatre Partner!**” We invite individuals and businesses to consider placing a program advertisement, being a performance sponsorship or making a donation toward the production expenses. Your assistance directly supports the Green Bay East Theatre program and is greatly appreciated. Complete and return the form by April 10, 2024 to be sure you have a spot in the program!
